In the last years, the assumption that development projects focus only on their reports (rather than on the actual implementation of the project measures) has been dramatically, unprofessionally and

How to develop qualitative indicators?

→ By brainstorming following questions

How do we notice ... ?
How do we recognise ... ? Can we give concrete examples that show that ... ?
What exactly do we understand by ... ?
What would be the most important / most typical / first ... ?

Example: Women and empowerment

→ ... to find SMART definitions
